

Making your life easier with EZ-fill Smart[®]

The enhanced ready-to-use vial platform
for your aseptic manufacturing

MANAGING COMPLEXITY, DELIVERING VALUE

EZ-fill Smart®: your gateway to the future of aseptic manufacturing

Leveraging our market-leading EZ-fill® technology, we delivered EZ-fill Smart®: an enhanced version of our pre-sterilized platform aiming to make RTU vials a standard.

Responding to market requirements, EZ-fill Smart® brings the same top-notch features as EZ-fill® in terms of flexibility and streamlined pharma operations.

- Increased quality
- Reduced TCOs
- Improved sustainability
- Mitigated supply chain risks

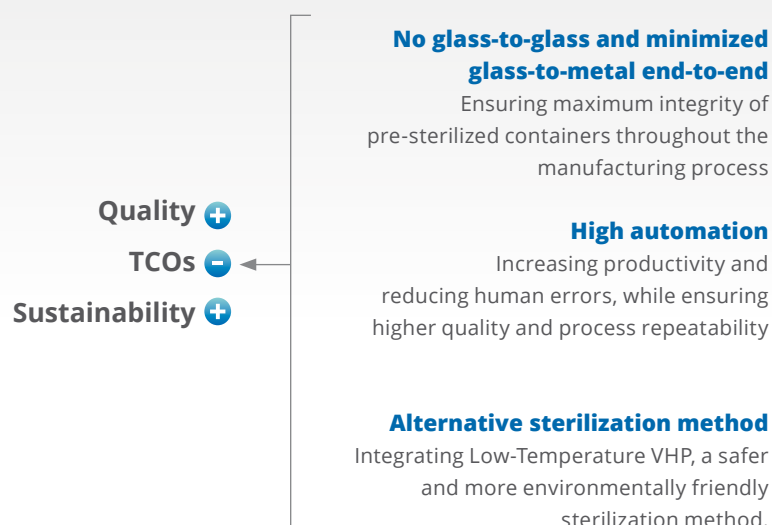

Our goal? Reducing complexity for pharma companies, CMOs, and CDMOs and helping them offer premium quality solutions to increase patient's safety.

Enhancing quality at a whole new level

We listened to your needs and worked to deliver results, working with a holistic

approach and introducing process and product optimization.

EZ-fillsmart®

New
Process

The smart choice when it comes to aseptic manufacturing flows

Looking at future plans will no longer be an issue. You can rely on a standardized production process and

secondary packaging, offering reliable sourcing and consistently available capacity.

Availability of different configurations

EZ-fill Smart® accommodates both small and large batch production, giving the required flexibility.

EZ-fill Smart® packaging is compatible with:

- The current EZ-fill® production process
- EtO sterilization method and LT-VHP sterilization method

EZ-fill Smart® production process is compatible with EZ-fill® packaging.

> EZ-fill Smart® comes as a **highly standardized platform**: it ensures seamless integration with standard fill & finish operations.

New
Nest & Tub

Redesigned secondary packaging

Yielding >90% reduction² of particle risks during operations and delivering improved quality

Optimized Design

Tyvek relocation to ensure sterilization

Use of biopolymers and recycled plastic

Combining sustainability approach with increased packaging efficiency

- + Quality
- TCOs
- + Sustainability

² Verified by internal testing and external certified laboratory

Headquarters

Via Molinella, 17
35017 Piombino Dese
Padova, Italy

**Global presence with operating units
and commercial offices in 10 countries.**
